General Guidelines
for funding under the National Development Plan: Childcare Measure of the Social Inclusion Sub-Programme of the Regional Operational Programme.

This information should be read in advance of making an application for funding by:
- All Community Based/Not-for-Profit groups who are applying for a Capital and/or Staffing grant(s).
- All Self-employed Childcare Providers who are applying for a Capital grant.
General Background

The Department of Justice, Equality and Law Reform has responsibility for a Childcare Programme under the National Development Plan.

The main objectives of this Programme are:

- To improve the quality of childcare in Ireland.
- To increase the number of childcare facilities and childcare places.
- To introduce a co-ordinated approach to the delivery of childcare services.

The Department has introduced the ‘Equal Opportunities Childcare Programme (2000-2006)’ to fund the development of Childcare in Ireland while seeking to ensure that existing childcare services are not displaced by the introduction of new initiatives in the childcare area.

These guidelines refer to the three following schemes only.

Types of Funding include:

- **Capital:** To establish, renovate and/or upgrade childcare facilities for Community based/Not-for-profit groups.
- **Staffing:** To support staffing costs for community based childcare facilities.
- **Capital:** To build, renovate or upgrade childcare facilities for Self-Employed childcare providers catering for not more than 20 children at any one time.

**Other Funding under the Programme**

- **National Voluntary Childcare Organisations:** Developmental support for the National Voluntary Childcare Organisations.
- **Local Networks:** To support the development of local childcare network initiatives.
- **Innovative Projects:** To support innovative projects in the childcare area.
- **Training:** To encourage and promote local childcare training models that assist in the enhancement of quality childcare provision.

Information will be circulated separately for these categories by the Equal Opportunities Childcare Section, Department of Justice, Equality & Law Reform, Mespil Rd, Dublin 4.

The Department of Justice, Equality and Law Reform has established a National Co-ordinating Childcare Committee and during 2000, a County Childcare Committee will be formalised in each County. The key aim of these structures is to assist in the co-ordination of childcare, both nationally and locally, and to assist in the prioritisation of funding.

**Timeframe for Applications**

Initially the application process will be ‘rolling’ or ‘open ended’ whereby there will be no closing date for receipt of applications (for at least the first two years.) Therefore, applicants should take their time to prepare their project proposal and only apply when they are ready to do so. It is anticipated that applications will be processed in quarterly cycles (e.g. applications received in the first two weeks of one quarter are likely to be processed by the early part of the following quarter – subject to the volume of applications).

The Department of Justice, Equality and Law Reform is working with Area Development Management Ltd (ADM) to deliver the Programme.

ADM is an independent company designated by the Irish Government & the European Commission to support integrated local economic and social development.

3.4 Projects that rate highly against the criteria will also be assessed in terms of a balanced spread to include;

   (a) grants to the different categories (Capital – Community and Private, Staffing etc.)
   (b) A Geographical balance.

3.5 The following assessment criteria have been developed to help appraise all applications for funding.
The 5 assessment criteria are listed below with a small number of examples under each criteria.

The socio economic and demographic profile of the area
For example:
■ the location of the childcare services in terms of demographics; e.g. population projections, age groups, labour market projections etc.
■ the extent to which the project will increase the number of affordable childcare places in disadvantaged areas.

The quality of the proposal
For example:
■ the focus of the childcare service with respect to the development of children and their needs.
■ the level of staff training & qualifications.
■ the extent to which the project caters for children with special requirements.
■ the extent to which the project caters for children of ethnic diversity.

■ the extent to which funding will create new opportunities for men and women to avail of training, education and employment opportunities.

The capacity of the group to implement the project

■ the previous experience and background in childcare.
■ the management structures appropriate to the nature of the project.
■ the financial controls and systems appropriate to the project.
■ the ability of the group/individual to comply with the terms of funding.

The Level of Integration/Co-ordination
For example:

■ the level of consultation undertaken prior to submitting the application.
■ the level of integration/linkage of the childcare service with other compatible actions or programmes established in the locality.

The Costings/Value for Money
For example:
■ the financial sustainability of the project i.e. in addition to funding, will the applicant have sufficient funds to maintain the facility and meet other overheads.
■ the overall cost of the project with regard to the number of additional childcare places being created.
4 How will list of successful applicants be arrived at?

4.1 A process has been put in place which will involve the assessment of each individual application by ADM Ltd. and an appraisal committee. This process may involve project appraisal visits/meetings.

4.2 On completion of the assessment procedure, recommendations on projects and grants to be allocated will be made to the Minister for Justice, Equality and Law Reform for final decision.

4.3 Following the Minister’s decision and the notification of that decision to the applicant, ADM Ltd. will deal with all aspects of delivery of the grant. This will include the offer of a contract, financial transfers and monitoring of performance and expenditure, training and support.

5 What about monitoring, reporting and supporting of successful applicants?

5.1 It is a condition of funding that the group agrees to have its project monitored by the Department of Justice, Equality and Law Reform, ADM Ltd. or by its agents and to allow access to its premises and records as necessary for that purpose.

- the increase in space at the facility.
- the type of childcare development programme used.
