Subject: Digital age of consent

To whom it may concern,

I am a qualified primary teacher with twenty two years of experience and am also a facilitator with Barnardos giving talks on "Internet Safety and Cyberbullying". As a teacher and facilitator I see first hand how essential it is for the age of digital consent to be raised to age sixteen. I would also urge you to hold public meetings to raise awarenesss of this campaign. I feel so strongly about this issue that I would recommend these meetings should be based in the schools across the country.

Yours Sincerely,
[REDACTED]
