Subject: Query

Hi there,

I watched Mary Aiken's interview on Ray Darcy Show last night. She spoke about the digital age of consent debate and new laws. I certainly was not aware of it. Is the submission process closed (I note a December deadline)?

Could more efforts be made to raise awareness in the general public so that we have a voice in this decision. Any information leaflets or previous awareness campaigns would be great to see, if you could please send on.

Best regards,
